RE: TANKS SOLICITATION #SCC060008

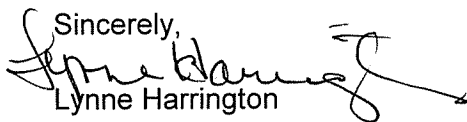

Dear Bambi:

Willis Insurance Services of California, Inc. is the insurance broker for URS Corporation. I understand that URS is responding to the above-referenced solicitation. URS has shared the insurance requirements with me, and I can attest that URS will be able to comply with the insurance requirements if awarded the project.

I would like to clarify two minor issues I found with the requirements.

- In Section E., there is a requirement that certificates be signed by a person authorized by that insurer to bind coverage on its behalf. As an insurance broker, Willis Insurance Services of California is not authorized by any carrier to bind coverage on their behalf. However, we are authorized to place insurance with various carriers. Most firms for whom our clients do work accept certificates signed by insurance brokers. If the State of Arizona must have the certificate signed by a person authorized by the insurer to bind coverage, I can have URS' certificates signed by the underwriter at each of the carriers with whom URS has placed the required coverage.
- URS Corporation's Contractors Pollution Liability policy is not written on an occurrence basis, but rather, it is written on a claims-made basis. URS' retroactive date is 10/1/1956. URS will maintain continuous coverage for a period of two (2) years beginning from the time work under the contract is completed. If continuous coverage is not maintained, URS will purchase an extended reporting period for two years after completion of the contract.

Please do not hesitate to contact me at the above number if you have any questions or would like additional information.

Sincerely,

Lynne Harrington

Re: Tanks Solicitation #SCC060008 – Capability of Insurability

Dear Ms. Brenden:

This correspondence is intended to provide supplemental information to Willis' letter providing evidence of URS Corporation's insurability. As indicated in Willis' letter, URS Corporation's Contractors Pollution Liability policy is written on a claims-made basis rather than on an occurrence basis. In a December 16, 2005 telephone conversation with you and a representative of the State of Arizona Risk Management Section, it was stated that the claims-made basis was acceptable to the Risk Management Section provided that any retroactive date precede the effective date of this Contract, and that continuous coverage be maintained or an extended discovery period be exercised for a period of two (2) years from the time work under this Contract is completed. These conditions mirror those allowed for a claims-made basis for Professional Liability Insurance [e.g., see Sections 4.26.3(A)(4)(a) and 4.26.4(A)(4)(a)].

If you have any questions or comments regarding this information, please do not hesitate to call me at (602) 861-7494.

Sincerely,

URS Corporation
